- ETL listed for US and Canada

RUNABOUT

For individuals to perform at their best, we believe technology must be easy-to-use, flexible and readily available. The Runabout achieves this as a portable, universal accessory for simple central power distribution. Both practical and powerful, it provides instant access to six 2.1A USB ports and three 15 Amp spill-resistant receptacles in a single device. Its compact 360 degree design allows up to nine users to simultaneously access power. The accommodating Runabout is portable and can rest on any surface or be fixed in place.
